IN-BASE SQUARE | SQUARE TUBE COFFEE BASE

CONTRACT TABLE BASES

SQUARE COFFEE HEIGHT TABLE BASE The In-Base Square Coffee Height Table Base is made from steel to provide a heavy supportive base with a powder-coated matt finish. A plain matt black finish means that the In-Base will happily accommodate a huge range of tabletop types and colours, meaning you have a great space in which to express the individuality of your particular interior design or business theme. The In-Base is ideal for Coffee tables up to 800mm square for indoor use in cafe environments. Manufactured specifically for the heavy use of a busy commercial establishment and available in a choice of sizes and heights to support a large variety of table base sizes. Contact us to know more about the In-Base Square Coffee Table Base supplied by UHS International.
