MILO SIDE CHAIR

STACKING CHAIRS

WOODEN SEAT DINING CHAIR A school chair style side chair with a ply seat and back and a simple steel frame the Milo side chair is one of the building blocks of contract furniture. The clean minimal design of this steel-framed side chair is reminiscent of industrial furniture. The similarities it bears to a lab stool with a wooden seat make the Milo side chair stand out as a particularly trendy piece of commercial furniture. The steel frame can be powder coated at will while the wood seat and back can be finished in any standard stain. From a selected range of steel frame chairs, the Milo side chair is one of a kind that will compliment your dining space. Talk to us to know more about this wooden seat dining chair.
