

MARINE BAR STOOL

CONTRACT BAR STOOLS

ALUMINIUM BARSTOOL The Marine Barstool is the model of industrial furniture. This formed aluminium bar stool is welded, brushed, and anodised to a clean finish. As with all our contract furniture the Marine stool is available in any standard RAL, though in its raw form it would suit as a modern restaurant stool. With a matching chair available, the Marine bar stool is a simple and versatile option for a wide variety of commercial furniture needs. The Marine aluminium barstool is the perfect addition to any space looking to add a bit of decorative flair. This modern restaurant barstool is sure to withstand everyday use in busy commercial environments. It is manufactured specifically for the hospitality industry, the Marine Barstool design has been tried and tested for decades. Contact us to find out more about this modern commercial barstool at UHS International.
