

ZILO BARSTOOL

CONTRACT BAR STOOLS

RESTAURANT GRADE BARSTOOL Inspired by vintage old schoolhouse stools, this is the coolest seat at the bar. The wood and hardworking metal give it a farmhouse industrial edge, and each of these contract grade barstools is finished by hand for a beautiful, rustic color. An old school bar stool with a ply seat and back, the Zilo Barstool sits at the heart of all bar furniture. Its clean minimal design is reminiscent of industrial furniture. The similarities it bears to a lab stool make the Zilo stand out as a particularly trendy piece of commercial furniture. The frame can be powder coated at will while the seat and back can be finished in any standard stain. A higher take on a classic retro design, this trendy contract grade barstool features padding on the seat and back to keep your guests comfortable. Style yours with the matching Zilo side chair and a selection of our industrial metal counter stools to channel that upscale, restaurant-worthy look in an instant. The Zilo Barstool is a striking upgrade for your breakfast bar or counter. Visit us to find out more about this contract grade restaurant barstool at UHS International.
