

HAMPSTEAD ROUND TABLE TOP

TABLE PLACE CHAIRS

ROUND BUTCHER BLOCK TABLE TOP The butcher block Tables' appearance makes it a classic for any restaurant, whether it's decor is modern or traditional. One advantage of solid beech butcher block table tops is that moisture cannot cause lifting of layers. Also, butcher block table tops can be sanded down and refinished to restore the table top's look, making it an excellent long-term investment for restaurant and hospitality use. This round butcher block table top offers a unique look, where the plank faces are glued together to expose the edge grain on the table top. This commercial butcher block table top is constructed of raw 40 x 40 beech wood section with 5mm radiused corners all around. All surfaces sanded ready for the finish to a standard stain or lacquer. We can also stain it in a wide selection of custom colours. Contact us to know more about the Hampstead Round Table Top supplied by UHS International.
