

SODA BAR TABLE

TABLE PLACE CHAIRS

RECTANGULAR LONG BAR TABLE The large, rectangular bar table with a Zinc industrial finish top and steel leg frame blends modern lines with organic materials for a mid-century modern design aesthetic. Natural imperfections in the zinc give the stark piece a slightly rustic finish, creating a unique every day long bar table. This sophisticated piece is simple yet impactful, giving your dining space an industrial edge. A high-top rectangular table that you can work at, eat, or mingle around with a drink. A Soda Bar Table is sure to provide your space with a warm and elegant feel that is one of a kind. The zinc table top is finished with an antique effect wash that will age and patina over time, adding to the piece's character. Zinc is a soft and malleable metal that will stand the test of time. The steel base is fully welded and beautifully paired with a zinc tabletop. Get in touch with us to discover more about this Zinc Top Bar Table at UHS International.
