MODA ARMCHAIR

TABLE PLACE CHAIRS

METAL FRAME ARMCHAIR The modern structure of our Moda dining chair is the perfect contrast to its plush, tailored cushion, and a wired frame, for a look that manages to read both industrial and glam. This metal-framed armchair is suitable for both indoors and outdoors use. It has a retro flair and is available powder coated to any RAL colour. Moda Armchair enables you to rest back and arms equally comfortably. The upholstered seat comes in any fabric, as well as in faux leather. The metal frame of this Moda dining chair comes in a variety of different looks to suit individual tastes. Customers can also choose between a range of different colours, and a slender, powder-coated metal frame. The galvanised and powder-coated metal frame works equally well with or without a seat pad. The open frame back of this Moda Armchair allows for additional elements of your design to shine through. This chair looks great with any table. The piping on the edges accentuates the dynamic nature of this wireframe armchair design, which serves to delineate the shape of the armrests. This modern Moda chair offers exceptional comfort and, as such, a place in which to rest and relax. Visit us to find out more about this Moda dining chair at UHS International.
