

CHECKO LOW STOOL

CONTRACT BAR STOOLS

SMALL ROUND WOODEN STOOL Perched atop slightly splayed legs, this small round wooden stool is crafted from bent wood and a round upholstered seat, lending instant traditional appeal to your arrangement. Wrapped in either fabric or leather upholstery with a foam-filled seat, this bentwood low stool showcases blind tufting and piped seams for a traditional look in any ensemble. A classic bentwood low stool the Checko low stool would be at home next to a range of bistro chairs. Alternatively, it would pair nicely as a table stool in the same area as some taller bar stools. The elegant bent wood frame can be stained in a variety of finishes or done in block colours. An upholstered seat pad is also available to top this stool with an additional bit of comfort. Get in touch with us to know more about this Checko Low Stool at UHS International.
