COMPASS TABLE

CONTRACT DINING & BAR TABLES

LIGHT OAK ROUND TABLE Add some cool boho vibes to your dining space with this stylish Compass Table. The oval tabletop is made from engineered oak wood in a natural finish that will look great in Scandi-inspired and modern areas. Supporting the design is an open metal wirework pedestal base, and its black finish matches the top for a cohesive look. This light oak round table measures 100" long so that you can fit six people comfortably – but you could squeeze eight in a pinch. This oak top dining table is an excellent table for sharing a fun and vibrant meal! Chairs are available to match. The Compass Table will add a contemporary addition to any area. Featuring a black wireframe with a fixed round oak effect top, this table creates a unique industrial feel with a classic contrast. Contact us to discover more about the Compass Table supplied by UHS International.
