

JASPAR SIDE CHAIR

OUTDOOR FURNITURE

STACKABLE GARDEN CHAIR A modern touch to alfresco dining, the Jaspar Side Chair is made of a durable fibreglass and polypropylene blend with UV protection to prevent fading or discolouration from the sun. The lightweight, stackable design makes this outdoor chair easy to stash away once the season is over. This stackable garden chair comes in many colours and is the perfect outdoor furniture for modern outdoor environments. This comfortable, stackable outdoor chair can be used both indoors and outdoors; this patio chair is waterproof. In commercial places, the slat back is a popular choice for outdoor use as it will not catch the wind and get knocked over at the frequency of solid back chairs. This comfortable, stackable outdoor chair itself is very aesthetic and eye-catching, which is attractive to restaurants & cafes with foot traffic as potential customers.
