TABLE PLACE CHAIRS_

Table Place Chairs is an inspired range of furniture that has been designed for the community culture.

It was found that modern ways of working, socialising and networking demanded another level of comfort, design and vibe, so we made a careful selection of products here for that purpose.

Hospitality is everywhere, in the workspace, in retail, in commercial and hospitality venues. With our background in design and delivering many international projects for the F&B sector we decided to make a great range of design led, fit for purpose with many customisations available to the wider market...
